

OMEN by HP Reactor Mouse

Optical switch speed Light 'em up.

Score a next-level competitive advantage with lightning-fast optical-mechanical switches and customize your way to a comfortable win.

Ultra-fast response. Ultra-durable play.

- Say goodbye to input lag. With industry-leading optical-mechanical switch technology, light beam detection enables a 0.2ms click response time—3 times faster than a traditional mechanical mouse switch.¹ Respond quicker in-game, and enjoy extended durability with a 50 million click lifetime.

Customizable comfort:

- No matter your type of grip, easily choose from multiple palm rest positions for remarkably comfortable gameplay.

OMEN by HP Reactor Mouse

Product features

Be fast. Be accurate.

Equipped with the most advanced, eSports-grade 16,000 DPI optical sensor for ultimate speed and precision.

Cutting-edge metal cable:

Industry-first metal USB cable lays flat, eliminates kinking and ensures long-lasting durability.

Show your true colors:

Customize lighting and effects with up to 16.8 million color options from OMEN Command Center.

Play hard, with ease:

Remain comfortable during long gameplay sessions with a right-handed ergonomic shape and thumb rest.

Your mouse. Your way.

Tailor the way you play with six customizable mouse buttons, including on-the-fly DPI control.

Powered by OMEN Command Center:

Lead the way to victory from OMEN Command Center, which gives you full control over your OMEN lineup. Customize lighting, performance and button functionality—the power is yours.
